March 31, 2022

Dear Patient—

It is with heartfelt sadness and regret that I am writing you to tell you that I will stop seeing patients immediately for health reasons. I apologize for not being able to give more advanced notice, but the circumstances did not allow it.

I have had a wonderful journey of 38 years, and it has truly been an honor and a privilege being a part of your healthcare team. I have known many of you for over 30 years—relationships I will certainly miss.

There are 2 partners in the practice actively taking new patients: Dr. Tim Hernandez and Dr. Jessica Vazquez. They are both excellent, caring physicians. Dr. Hernandez has been practicing medicine since 1998 and Dr. Vazquez has been in practice for 6 years.

They have both agreed to “meet and greet” visits, if requested. They have also agreed to discount their usual annual extended service fee for my patients for the first year.

Refills will be filled by my partners and Crystal Torres, my medical assistant, will be available for questions. For those who decide to pursue healthcare elsewhere, records will be made available.

I encourage all of you to contact the office as soon as possible and schedule with one of our doctors.

I have deeply appreciated being a part of your extended family, sharing in your life events that have included your sorrows as well as your joys. I wish all of you the very best and pray for your good health.

Most Sincerely,

Robert B. Goff, Jr. M.D.
